Eilish

I think our view, without prejudice, is that option 1 that involves substituting your text for BV's text would probably be the best way to proceed should the members be minded to go down this path. That said some parties would no doubt see it as inappropriate that the Council have made an AA that relies in part on the applicant's input.

Your replacement text is set out in your document "Applicant's Proposed Revisions to the February 2010 Revised Appropriate Assessment Report". You haven't said exactly which pages of the BV report you would suggest it replaces but I think this would be pages 22 to 38 inclusive. Is this what you are suggesting?

Any resolution to grant planning permission should in my view be subject to officers being given delegated powers to agree and complete the section 106 and conditions first.

In terms of a meeting tomorrow, I think that we will pass on this given our need to prepare for the evening.
